1. OsteoRegeneration Day

SCIENCE AND PRACTICE OF DENTAL OSTEOGENESIS

Dear Colleagues!

The 2nd Ahrweiler Symposium was a great success! Due to the consistently positive feedback from all participants and the urgent request also to cover implantological topics at this event, we have planned the 3rd Ahrweiler Symposium – but this time it will be completely different!

As Alexander Scholz and I are always striving to offer a unique format, the event is now operating under the new name 'OsteoRegeneration Day'. As the name suggests, the day will be dedicated to the topic of augmentation techniques. A great deal has changed in this field of implantology in recent years, both in terms of augmentation methods and materials.

I am very pleased and also a little proud that I was able to win speakers with absolutely comprehensive expertise for our event. The different augmentation techniques will be presented and evaluated in a practical and comprehensive way.

FRIDAY, 5 SEPTEMBER 2025:

GET-TOGETHER FROM 7 P.M. AT THE HYATT REGENCY, DÜSSELDORF · PEBBLES TERRASSE

SATURDAY, 6 SEPTEMBER 2025:

AFTER WORK GALA DINNER
FROM 7 P.M. GALA DINNER
FOLLOWED BY A PARTY – OPEN END!

LOCATION: RESTAURANT 'MEERBAR'* ·
NEUER ZOLLHOF 1 · DÜSSELDORF
LIMITED NUMBER OF PARTICIPANTS!*

The participation fee for the training is €429 per person, including the get-together on Friday evening and the after-work gala dinner on Saturday evening. You will receive 8 training points for your participation, per person.

*In the event of a no-show despite prior registration, we will charge a fee of €59 to cover our expenses.

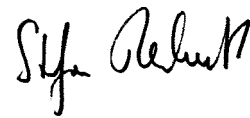

The participation fee for each accompanying person for the premium programme on Friday evening and the After Work Gala Dinner on Saturday evening is €99 per day.

Of course, complications and their proposed solutions will not be neglected.

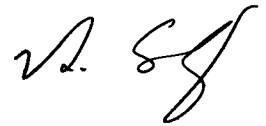

We have found the perfect location and hotel for this event in Düsseldorf: Hyatt Regency.

Last but not least, we would like to mention that socialising with colleagues is also very important to medentis and that we can look forward to a sensational supporting programme.

Sincerely Stefan Reinhardt

and Alexander Scholz
